Report of School Board.

For the school year ending Feb. 15, 1906, we respectfully submit the following, trusting it may meet with your expectation and approval.

We have maintained eleven schools, each having an equal length of thirty weeks, with an additional two weeks at No. 1. The school year just closed has been, as a whole, very satisfactory. Each year as it passes impresses your School Board more and more with the importance of giving the children the best schools possible, which can only be attained under the instruction of good teachers. In order to keep pace with the ever-changing times, we have purchased a new series of arithmetics (Milne's series), also have added some new readers (Carpenter's Geographia), both series have been commended by our teachers.

PERFECT ATTENDANCE.
